

Local Partners

Berlin Economics has a long-established, excellent network with leading economic research institutes in several transition countries.

These contacts enable us to draw on an extensive number of local experts in all relevant fields of our work, further tailoring our analytical capabilities to the specific needs of the client.

Ukraine: Institute for Economic Research and Policy Consulting (IER)

The IER Kiev is the leading economic think tank in Ukraine, founded by the Ukrainian government and the German Advisory Group in 1999. The aim of the institute is to provide policy advice to decision makers, inside and outside the government, on the basis of sound economic research.
www.ier.com.ua

Belarus: IPM Research Center

The IPM Research Center in Minsk – an independent economic research institute – was established in 1999 with the mission to enhance national competitiveness through research-based economic policy advice and the promotion of a professional dialogue on economic issues.

Independent Economics Consultancy in Emerging and Transition Countries

Objective

Berlin Economics is an independent economics consultancy that is committed to providing outstanding advice to international public and private sector clients. Our regional focus is on countries in transition and emerging markets.

Our team has several years of hands-on experience in providing high-ranking decision makers with advice, particularly in many Eastern European countries.

Our Approach

How do we generate value for our clients? Our economic advisory service is tailored to clients' problems and delivered via research reports, data support, presentations and briefings.

Public Clients:

- Policy advice for governments and related institutions from the public sector
- General advice on economic reforms
- Economic evaluation of specific policy measures
- Efficient design of public sector institutions

Private Clients:

- Country risk assessment
- Forecasting and scenario analysis
- Specific market entry studies
- Wide assistance in privatisation transactions and investment decisions

Areas of Expertise

Our staff, supported by an extensive network of international experts, provides in-depth consultancy services in a number of strategic areas.

Macroeconomic Policy:

- Monetary and exchange rate policy
- Public finance and debt management
- Trade policy/WTO/FTA

Financial Sector:

- Banking sector and financial markets
- Local bond market development
- Financial regulation and supervision

Energy:

- Energy efficiency and renewable energy
- Perspectives for gas, oil and electricity sector development

Private Sector:

- Creation of small and medium-sized enterprises
- Investment climate and FDI attraction
- Privatisation

Agriculture and Food Industry:

- Advice in the fields of food, agriculture and rural development
- Bioenergy

Social Policy:

- Concept and implementation of social policy measures
- Pension reform

Selected Activities

Ukraine: Berlin Economics advises the Ukrainian government on a wide range of economic policy issues. The main projects are the German Advisory Group and the German-Ukrainian Agricultural Policy Dialogue. www.beratergruppe-ukraine.de
www.apd-ukraine.de
